

ADDITROL PB MGT

PRODUCT DESCRIPTION

Additrol PB MGT is a single-package additive, precisely engineered and blended to meet your green sand molding requirements.

Additrol PB MGT provides a consistent blended single-package addition to the muller with a minimum of handling, storage and inventory. 10% of high grade coal with Flo-Carb and 90% Probond bentonite is individually formulated and manufactured to provide foundries with improved green sand additive control.

Additrol PB MGT is blended with the highest quality raw material at Amcol International (Thailand) blending plants conveniently located to ensure adequate supply and on-time delivery.

ADDITROL PB MGT FEATURES

- Highest quality ingredients. Accurately blended for individual applications.
- Simplified material handling and inventory
- Single addition at muller minimizes process variables
- Excellent green strength molding sand and easily shake out
- Improves Casting surface finish
- Improve sand flowability
- Reduces moisture demand in green sand and Reduces free water defects
- Improves shakeout and reduces sand carry-out
